

BOSTON DEFEATS ALEXANDER 2-1

COPS THIRD GAME OF SERIES FROM KING OF PHILLY PITCHERS; 42,300 ATTEND GAME

Braves Field, Boston, Oct. 11.—The Boston Americans again turned the trick with a ninth inning finish today, again defeating the Philadelphia Nationals, pennant winners of the National league, by a score of 2 to 1 before 42,300 people, the largest crowd that ever saw a world's series.

"Dutch" Leonard, the Red Sox port-side flinger, held the Phillies helpless throughout the game, permitting them to score in only one inning. Speaker's batting featured the game while Paskert roamed the outfield for Philadelphia and cut off several hits. Hooper's hit, a sacrifice, an infield out and Lewis' smash to center put over the final run for Boston.

Official figures: Attendance 42,300; paid admissions \$83,191; players' share \$44,923.14; National Commission's share \$8,319.10; each club's share \$18,974.38.

The third game of the 1915 world's series was fought out here this afternoon over the wonderful diamond and the wide green meadows of the largest and most beautiful baseball park in the world. It was a fit setting for the great battle that was to decide whether the Boston Red Sox or the desperately fighting Phillies would have the "jumping" by taking the add contest. The change from the tight little Philly park in the City of Brotherly Love to this wonder field was most striking. It seemed that the entire Philadelphia plant could be placed within the foul lines here and there would still be space left to keep "Gavvy" Cravath's home runs in the lot.

It was a wonderful day, too, not a cloud in the sky. An Indian summer sun by noon had driven away the chill in the early morning air. The waters of the historic Charles river, running beyond the park rippled by a lazy autumn breeze. Never were conditions more ideal for a contest between the titled athletes of the two big baseball leagues and the enjoining of the explosive Boston fans early gave promise of a good breaking through.

Always one of the most enthusiastic ball towns in the country, Boston was all but daffy in a delirium of joy today over the prospect of a game that was expected to be a turning point in the great series that began in Philadelphia last Friday and was interrupted there on Saturday evening with honors even. No little of the anticipatory excitement today was due to the fact that Grover Cleveland Alexander was to make his second start and attempt to hold the slugging Sox back for another defeat.

The whole of the Phillies was wrapped up in "Alex" today and they confidently expected him to hold a game that could not be beaten. Baseball logic is a queer thing. The Philadelphians were claiming today that last Friday's indifferent game had really just served to put "Alex" on edge for today and that he would prove far more effective for having had the experience of facing the red hosed warriors from Boston.

On the other hand the Sox were just as confident that having once looked over all Alexander had to offer they no longer had any fear of him and were prepared to give his side-flung and fast-breaking curves "a ride" to all parts of the field.

Manager Carrigan's early morning selection for pitcher was "Dutch" Leonard, the star port-side of the American league.

"Dutch" was anxious to match his arms and skill against the hope of the Phillies and with these two motives enthusiasm in the box a far raising pitching duel was looked forward to.

The Sox had all the advantage that goes with the home crowd and there were more than double the local supporters on hand to cheer from than the Phillies could crowd into their yard on Broad street.

By the playing field itself was stronger to the Sox than to the Phillies, this home of the Braves having been selected in favor of the American league park because of its superior accommodations.

Leonard and Carrigan were announced as the battery for Boston. Alexander and Burns were named as the battery for Philadelphia.

Charles O'Loughlin gave the toss on balls and strikes. Judge Klein gave the decisions. News Agency today,

Says He's Innocent, But He Surrenders

Bowling Green, Oct. 11.—Claiming innocence, but wishing to be cleared by the court rather than further dodge the officers of the law, Frank McGuire voluntarily surrendered to Sheriff Skibbie yesterday.

McGuire escaped from the Wood county jail on the night of November 11, 1906, before he was brought to trial for the murder of Constable Frank Thornton, of Perryburg on December 27, 1905. That night an attempt was made to blow the safe in the Perryburg bank.

Martin Kirby arraigned with McGuire, was sentenced to the penitentiary on the charge.

ONE IS KILLED IN SHOE FACTORY BLAST

Weymouth, Mass., Oct. 11.—destruction of the engine room of the George C. Strong Shoe factory here today by a boiler explosion.

Reed and Forgarty were taken to a hospital where it was said their injuries might prove fatal.

MINISTER KILLS MAN HE THOUGHT BURGLAR

New Orleans, Oct. 11.—The Rev. Byron Holley, rector of St. George's Episcopal church, one of the most fashionable congregations in the city, early today shot and killed Lanning Pearsall, son of a prominent railroad man here.

Dr. Holley told the police he shot Pearsall thinking he was a burglar.

About six o'clock this morning Dr. Holley telephoned police headquarters he had shot a man in the rectory study. The minister told the police that while in his office he heard some one in his study adjoining. Taking a pistol he stepped into the study and saw a man near the door.

"The intruder did not answer my questions as to who he was and what he wanted," Dr. Holley said, "and when I ordered him out he made a motion as if to draw a weapon. I fired and the man fell."

REPUBLICAN CENTRAL COMMITTEE TO MEET

Columbus, Oct. 11.—W. L. Parmenter, of Lima, chairman of the Republican State Central committee, has called a meeting of the committee to be held in Columbus tomorrow morning. It is reported that the purpose of the meeting is to give party endorsement to the McDermott law and to devise means of protecting it from referendum.

A number of Republican state leaders not members of the central committee will attend the conference and it is expected a diversity of opinion over the question of endorsing the McDermott law will develop. Many leaders are said to be strongly opposed to making the law on referendum a party measure, despite the fact that the Democratic central and executive last week gave virtual endorsement to the present system in opposition to the McDermott law. It became known today that Governor Willis had cancelled all general speaking engagements between the time of his return from San Francisco, next Monday and the election, November 2, so that he may devote his time to accumulated business and to fighting the McDermott law. Two or three speeches on this measure will be arranged, it was said.

WHITLOCK ILL

The Hague, Oct. 11.—(Via London)—Letters received here from Brussels state that Brand Whitlock, American minister to Belgium, is confined to his bed. His illness is due in part to the strain to which he has been subjected as mediator between Belgians and Germans.

Cleveland, Oct. 11.—Investigation was begun here today of a fire early this morning in the plant of the National Carbon company, engaged in filling war orders, which caused \$50,000 loss. Warehouses containing goods ready for shipment to Europe were consumed. Incendiaries are suspected.

ATTACKS PROCEED TO SOUTH OF CAPITAL

Berlin, Oct. 11.—(Via London)—Attacks by the Austro-German forces which are invading Serbia are proceeding to the south of Belgrade it was officially announced today. The announcement adds that the crossing of the Danube had been completed.

London, Oct. 11.—The Austro-German armies, which with the help of their giant 305 millimeter guns crossed the Danube and save rivers and occupied Belgrade are meeting with stubborn resistance at Serbian advanced defenses but have not come in contact with the main Serbian forces.

Telegrams from the Balkans, though not minimizing the seriousness of the Serbian position, reflect a tone of cheerful confidence in the ability of the allies to check the Austro-German invasion and successfully meet any future attack from the side of the Bulgarian order. The national danger, says these telegrams, has united Serbia as never before and throughout the country men physically unfit for the regular army and women and old men are arming for the defense of their country.

The population of Macedonia in Serbia has gathered into bands with the object of repulsing a possible Bulgarian attack. In addition to 300,000 soldiers, a million Serbians of both sexes and all ages are said to be ready to dispute all attempts at Austro-Bulgarian conquest.

The suspense attending the initiation of the Bulgarian campaign is puzzling military writers here, but is considered as probably due to the fact that the country still wanted several weeks to complete mobilization when the Russian ultimatum was sprung upon it.

In the western theatre of war the German attack in the vicinity of Loos appears to have subsided, having accomplished nothing except the securing of a temporary, partial footing in some trenches from which the assaults of the allied line afterwards were expected.

JOHN BULL'S CASUALTIES ARE 21,000 SINCE OCT.

The Hilltop W. C. T. U. meeting, scheduled for Tuesday evening, has been postponed one week.

Shakespeare's Legs.
There is no authority for the opinion that Shakespeare had one of his legs broken in a drunken brawl outside of a sonnet written by Marlowe, himself a brilliant debauchee and notorious liar. Apart from Marlowe's disfigurement, there is nothing to show that the great dramatist had a broken or deformed leg.

AFTERNOON AND EVENING DRESS

The model of this afternoon and evening dress is of brown chiffon velvet. Underneath the tunic of velvet is a skirt of chantilly lace. The half-length sleeves are lengthened by chantilly lace and reach to the wrist. The waist of the model is overlapped, forming a "V" at the throat. It is fastened at the waist line with four buttons. A medic collar, edged with lace, and a black velvet band of narrow width about the throat, gives the model the completed "dressed" appearance, which the really good dresser strives to achieve.

THEATRICAL

"Henpecked Henry"
"Henpecked Henry" is the story of the experience of a much abused person, a victim of a wife whose attempted domination keeps him constantly in hot water. It will be seen at the Sun theatre Wednesday matinee and night, and the most amusing musical comedy and the comeliest chorus of the season is assured. A series of side-splitting situations are introduced into a natural working out of an interesting plot. There is something doing every minute; not a dull second can be picked out of the various acts. It is a show that fulfills the public demand, providing laughter that is of the heartiest sort. Seat sale starts Tuesday morning.

The Movies

"Juggernaut" Comes to Lyric

One of the most thrilling motion pictures ever produced by the Vitaphone company will be shown Wednesday at the Lyric theatre. It is called "The Juggernaut." It is in six parts. The interest of the audience never wavers from the start of the opening scenes until the climax, when a heavy express train crashes through the rotting timbers of a trestle and plunges out of sight in the waters beneath. This scene alone is said to have cost the company \$25,000 and it is undoubtedly the most complete wreck scene ever staged. "The Juggernaut" was written by Donald I. Buchanan and produced by Ralph W. Ince. The best of the Vitaphone stars are used in the cast, which includes Anita Stewart, Julia Swayne Gordon, Earle Williams, William Dunn, Enid Jensen, Frank Currier, Paul Scardon and Jack Brown.

No picture ever shown in town before will compare with this great production. The story of the "Juggernaut" will hold you "spellbound" from beginning to end. The acting is simply great, and some of the "thrilling" scenes will be remembered as long as you live.

Mrs. Leslie Carter in "Du Barry"

Six Parts Columbia Tonight
George Kleine's "Du Barry" featuring the original cast of the famous stage play, is said to be the most magnificently set and richly caparisoned picture in the history of the silent drama. It is reasonable to suppose that the enterprise and business initiative which actuated George Kleine in gathering together a company of professionals of the caliber of Mrs. Leslie Carter, Hamilton Revelle, Campbell Gollan and Richard Thornton would not fail in those other essentials of the masterpiece. All Europe was rumormongered to obtain hangings, furniture of various kinds, equipages and what not, correct as to period. Even the long forgotten arms of Du Barry are embroidered on the beautiful coverlet of Mme. Du Barry's bed, which the casual French student will readily translate, "boutez en avant" (to step forward or make progress). In these details "Du Barry" is without peer or precedent in picture making.

Don't fail to see "Du Barry" at the Columbia tonight. First evening show at 6:30. No advance in prices for this attraction and all seats will be ten cents.

"Letters Entangled" At The Exhibit

Grace gets a position in Mrs. Day's dressmaking establishment and Mrs. Day gives her a home. A little daughter is born to Grace.

Sixteen years later the story takes a different turn. See the picture to appreciate it.

"Broncho Bill and the Land Grabber," a great western feature, and Chaplin in "The Park," one of his best pictures. All the offering for tomorrow. The price of admission is 5 cents.

At The Majestic

Tonight's bill at the Majestic consists of the usual four reels and they will be unusually interesting.

The star attraction will be a reel feature "The Newer Way," in which Vivian Rich plays the leading part.

Then there is a big two reel Keystone comic "Fido's Tintype Tangle," featuring Roscoe Arbuckle.

Tuesday, the Majestic presents "The Phantom Extra," "The Strawman" and "The Reception"—all plays of exceptional merit.

The Arcana

The Universal Animated Weekly, "The House On E Street" and "Henpecked Smith," comprise the program for the Arcana picture theatre Monday. The Animated Weekly shows the latest current events throughout the world. "The House On E Street" is something of a mystery that will please you better by not knowing anything about it until you see it.

"Henpecked Smith," a humorous laughable comedy, finishes this splendid program. Another lot of beautiful selections will arrive Monday for the orchestra and you know you always like to hear the latest. The price of admission is only 5 cents.

Temple Theatre

Truly "The Diamond from the Sky" shown at the Temple theatre on Eleventh street is built upon a wondrous foundation. The fifteenth chapter now disclosed is thrillingly studied, and not there just for the sake of excitement but thrills because the story naturally leads up to situations and incidents most remarkable. The third and fourth is a "Thames" production in two parts entitled "Reincarnation" featuring Florence LaBadie and Harrie Gordin.

KIPLING'S SON IS WOUNDED

London, Oct. 11.—Rudyard Kipling has received no further news of his son who was wounded and reported missing in the north of France. He was only slightly wounded when last seen, and his parents are hopeful that he suffered no more serious fate than being taken prisoner inside the German lines. Mr. Kipling sent to the Associated Press today the following message:

"I should be obliged if you would note public in America the fact that up to date my son John is reported wounded and missing, not wounded and believed killed, as stated in the press a few days ago."

John Kipling, of the Irish Guards, only son of Mr. Kipling, was but 18 years old when he entered the British army. Although of delicate health, he finally overcame the objections of his parents, who were reluctant to have him enlist.

CLOSING OF SALOONS HITS CRIME RECORD

Chicago, Oct. 11.—Closing of saloons in Chicago on Sunday for the first time in forty-four years resulted in the day passing with the lowest crime record in the history of the police department, Chief of Police Healey announced today.

Out of the 7,152 saloons in the city, only 28 were found to have violated Mayor Thompson's closing order, which became effective at midnight Saturday. Most of violations were of a minor character, only one saloon keeper being arrested. Saloons in the suburban districts where the state closing law was not enforced, received an unusually brisk trade from automobile parties.

There were only sixteen arrests made for drunkenness yesterday, and forty-seven on Saturday, as compared with an average of 248 for the two days during several months past. Some of the downtown bars and a few in the densely populated districts opened their places for business between last night and one o'clock this morning but the amount of trade was not up to expectations.

Saloon keepers estimated that they lost \$400,000 yesterday as a result of being obliged to close.

Over \$200 Made From Tag Days

The sum of \$208.61 was realized at the Tag Day sale of the Fresh Air Camp, which was conducted last Thursday, tags being sold about the streets by a party of young ladies. The prize, a handsome lavalliere, for selling the most tags was awarded to Miss Ethel Doerr, who turned in \$29.27 in her box. The second prize, a corsage bouquet, donated by Miss Hennis, was won by Miss Edith Tronhart, who turned in \$16.45. Three boxes have not yet been turned in and the committee in charge of the Tag Sale would appreciate it if the holders would send them in at once.

ANOTHER RALLY DAY

One week ago the people of the little Hutchins St. School had rally day, and everybody hustled and to the surprise of a great many the attendance was 306. Yesterday they had a rally day in finance. There was \$113.75 needed and at the close of the school the pastor came forward and stated the fact and money began coming in from every side and in about fifteen minutes \$125 was raised.

U. S. TO RECOGNIZE CARRANZA FACTION

Washington, Oct. 11.—The governments of Bolivia, Uruguay and Guatemala remained to be heard from today in approval of the United States government in deciding to recognize the Carranza government in Mexico.

The other countries which participated in the Pan-American peace conference through their diplomatic representatives, Argentina, Brazil and Chile, already have sanctioned the work of the conference. The approval of the first-named governments is momentarily expected.

The next step to be taken by the United States will be determination of the form in which recognition shall be accorded. It is expected to be extended this week, possibly through formal notification, to Eliseo Arredondo, Carranza's official agent here. Prohibition of shipment of arms to factions opposed to Carranza government then will follow.

Although an arms embargo will materially weaken the resources of the Villa element, M. Diaz Lombardo, foreign minister of the convention government, in a formal statement given out here, announced that the struggle will be continued in Mexico. Similar advice have been received by the state department from American Consul Agent Carolthers, following an interview with Villa.

This Week, An Extraordinary Offer On Women's Suits . AT . \$20.00

While the Korn Karnival was raging last week our women's suit buyer hustled off to New York to grab some bargains that would appeal to the women of the community this week in a great showing of suits to be sold at \$20.00.

His purchases are now rolling in. This morning's express brought fifty fine new suits out of the New York work rooms as late as Saturday. Many of these suits have some new style features and all are particularly desirable.

With The Great Showing For This Week Of \$20.00 Suits Every Woman Should Investigate This Special Opportunity

We have planned enough desirable suits in the different sizes to last the week out at the \$20.00 price, but we advise, nevertheless, an early visit to our suit store for the choicest of the choice. Our wide experience in the suit business qualifies us as judges and we are enthusiastic over the qualities and real value of this great line of suits at \$20.00, and you will readily recognize their supreme worth when you see them.

The newer styles reveal a considerable trend in the Russian style, and more and more far trimming appears as the weather becomes more chill. These of course are very evident in our great \$20.00 showing. Then we have the plain tailored styles in the large sizes as well as the jaunty box styles for the attractive miss.

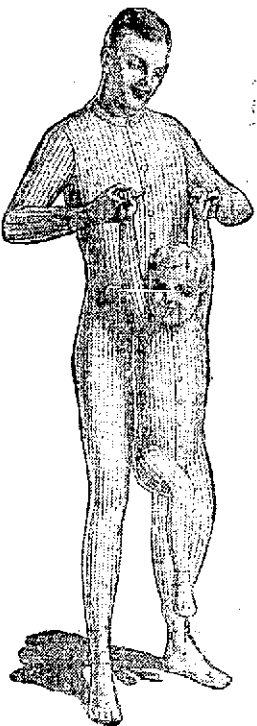

Taking in all, we believe this splendid assortment of very desirable suits set aside to be sold this week at \$20 each will cause a stir among the women of the community. We are certain that every purchaser will receive unusual value and the price is so moderate and popular that many women will be exceedingly pleased.

Our advice to you is to come and investigate our \$20.00 suit proposition at once.

MUNSING WEAR

And You'll All Be Comfortable This Winter

MANY folks seem to have the idea that Munsingwear is high priced.

The fine quality and careful workmanship in Munsingwear undoubtedly give that impression.

When they find out the price of the particular Munsingwear style and fabric that they like best, they are usually surprised—and delighted.

They are delighted again when they put on their Munsingwear—it fits so perfectly, feels so comfortable.

Again they are surprised when the Munsingwear comes back from the wash—as perfect-fitting as ever.

The climax to their Munsingwear experience comes when they discover how long it wears.

For any man, woman or child—tall, thin, short or stout—there's a perfect-fitting Munsingwear garment in any style, fabric or weight desired.

These Munsingwear features explain why there are now 9,000,000 Munsingwear garments sold annually.

CHILLICOTHE AND FRONT STREETS

VALLEE HAROLD AND HARRY E. TAYLOR, Editors.
GEORGE M. TAYLOR, Managing Editor.

Entered at Postoffice at Portsmouth, O., as Second Class Mail Matter.

A GROWING CITY.

Every time the editor of The Times goes to Columbus the city appears more beautiful. Improvements are constantly being made and today the city is in the very front rank of progressive American municipalities. The repaving of High street was a fine job and it has greatly enhanced the appearance of the Capital City of our state.

Columbus is one of the best convention cities in the nation, and our old friend George J. Karb, who presides as mayor, is the ideal person to extend the welcoming hand to delegates. He can make a person feel more at home than any one we can recall. And the Capital City today is one of the best governed municipalities in the country.

There are no large cities that can excel Columbus in the provisions made for the health, and comfort of the people. Sewers have been provided on an extensive scale and the sewage purification plant is a wonderful institution. A supply of water that has been pronounced by government experts to be one hundred per cent pure has assisted in reducing the death rate to a minimum.

The remarkable success which has attended Columbus in her operation of a municipal light plant is looked upon as marvelous. Water rates have been lowered, the tax rate is low enough to be an inducement to own homes and the cost of street lighting and of water has been materially reduced.

Columbus has cause to be proud of the manner in which her affairs are being handled. The Capital City will make a serious mistake if she does not continue George J. Karb in the mayor's office.

LIKED OUR KARNIVAL.

Mr. Emmet H. Steger, who was in Portsmouth last week in charge of the Norfolk & Western exhibit of agricultural products, in a talk with us about the Portsmouth Karnival, stated that one thing especially to be commended in the Karnival was the absence of shows of the street fair and side show variety. "Wherever you find this class of attractions you will find that people begin to tire of the exhibitions, and that they lose prestige. These shows simply cause people to spend their money without giving them anything helpful in return, and in my experience, and I have been making from 20 to 30 exhibitions a year, I have not found a place where fairs or Karnivals were helped in any degree by the presence of side show attractions. Portsmouth is to be congratulated upon keeping her Karnival free from such attractions."

Mr. Steger also spoke of the general hospitality with which Portsmouth greeted her visitors, and the air of good feeling that seemed to prevail in the community. He said that he had noted with pleasure the increase in interest that was being taken by the farming sections of Scioto county in scientific agriculture, and he felt certain that as a result there would be a decided increase in the productivity of our farms during the next few years. "There is not any better corn land in the world than in the Scioto Valley," said Mr. Steger. "I am going to take samples of Scioto corn with me to Richmond, Virginia, where I will be with the N. & W. exhibit next week at the Virginia State Fair. I am sure that our Virginia farmers will be deeply interested in what the Scioto Valley farmers are doing in the corn raising line."

The Norfolk & Western maintains a fine department of agriculture and those in charge are constantly on the job in an effort to advance the agricultural interests in N. & W. territory. A great work is being done and the results are most satisfactory.

Judge E. E. Corn, of Ironton, has written a letter to the commissioners of Lawrence county, in which he advocates the use of prisoners confined in the county jail, in the repair of county roads. He recites that a number of men are confined in jail for minor offenses, eating their heads off, while they would be better off if they were working. At the same time there are a number of roads in wretched condition and the prisoners could be used to good advantage on them. There seems no reason why this should not be done, not only in Lawrence, but also in other counties. The men should be paid certain stipulated amounts and the money turned over to their families to help support them while the husband or father is in prison.

Well, the Karnival is over. It was a success in every respect. It carried the name and the fame of Portsmouth into every part of this section of the country. It brought thousands of people here and they marveled at the growth and prosperity of the town. It brought old friends and new ones to our merchants, it opened up new avenues of trade. It was worth the effort expended by the gentlemen who managed it. And it is worth greater effort to make the next one as educating, entertaining and novel in its features. Let there be no backward step.

Every railroad in the country making money and shouting for more cars! The stock exchanges reporting the greatest business for twenty-five years! Crops that are "busters" and prices that make the farmers sing for joy! And yet Harry Daugherty, senatorial candidate, who is making more money now than he ever made in his life, is around mourning and despairing of the republic and wants the tariff tinkered with.

TIRED BUT HAPPY.

THE BOPE INCIDENT.

George W. Bope should never have been appointed chief inspector of work shops and factories in the first place. He had no known qualifications for the place except having made political speeches during the last campaign. He at least should have acted decently and not have cast reproach upon his sponsors as he has done by his bad habits and general unseemly conduct, within a week after taking office, and he should have no sympathy now that his resignation has been asked. If he does not have the grace to resign, he should be removed, and no attention paid to his mouthings, or threats to tell alleged secrets of inner workings of the Willis campaign. Any thing that Bope might have to say or tell, if he knew anything, is discredited in advance. The best thing he can do for himself is to drop out of public sight.

The prompt action of the administration in removing Bope is to be commended as highly as it's previous action in naming him to an important state office is to be condemned.

T. N. Patterson, cashier of the Piquet National Bank, has a farm and devotes some attention to raising hogs and cattle. The other day he shipped fifty hogs to Columbus and sold them at an average price of \$30 each, or \$1,500 for the lot. An expert said that the profit on each hog would be at least \$15 and probably would be about \$18. There is something in those figures that ought to appeal to Scioto county farmers.

Boyd Jarrell, editor of the Huntington Herald-Dispatch, has taken a wife. Now if Boyd will only make as good a husband as he does an editor, we are sure that he will be taking premiums in every "model husband" contest in West Virginia.

Some people have an idea that it is easy to run a newspaper during an event like the Karnival. Far from it. We had to work harder the past few days to get out an interesting paper than we have had to do for weeks. When people's minds are all bent in one direction it is hard to get them to think of news.

For a time, at least, the most noticeable thing about the entry of Bulgaria into the war will be the advent of a new "claimer" on the telephone line.

Huntington charity workers are advocating a whipping post for lazy men who will not work to support their wives and children. It sounds good. Twenty lashes ought to make the lazy germs go away and never come back if anything will.

NEW-YORK-DAY-BY-DAY.

O-O-MEINTYRE.

New York, Oct. 11.—Charles Dillingham may now enjoy a chorle or so privately. To chortle publicly would be rubbing it in.

When the huge Hippodrome was taken over by him the rumor went zipping up and down the Rialto that at last Dillingham had become the owner of a "white elephant."

Before going into details it might be stated that "Hip-Hip-Hooray!" is already the biggest success the Hippodrome has ever known and is having the biggest crowds in the history of the house.

"Hip-Hip-Hooray!" is a smashing spectacle that fairly carries the audience off their feet and leaves them breathless. The audience begins gasping when the curtain goes up on the first scene showing Brooklyn Bridge and the sky lines from a New York roof. The scene is worked out even to the traffic and street cars crossing the bridge.

The next scenes "Grant Central Station," "On Fifth Avenue," and "The Cascades at the Biltmore Hotel" are worked out so cleverly that the audience can hardly believe it is a theatre.

There is the John Philip Sousa Band reinforced by the regular Hip orchestra. At the close of the show when the audience expects all thrills to be exhausted there comes the big scene of all—"Flirting at St. Moritz." Scores of dancers dance on real ice in a reproduction of the celebrated resort and as a final thrill some skaters glide off the mammoth hills.

Bide Dudley tells of a well known Irish comedian who was ill recently and his physician told him he'd have to stop drinking for a while.

"When you feel like taking a drink," said the doctor, "eat a gum drop." The next day the comedian was at Thirty-eighth street and Broadway when the subway covering caved in.

He just missed going into the hole. Very much excited he rushed into a saloon nearby and, confronting the bartender, yelled: "For the love of Mike gimme a gum drop."

Julian Street, who doesn't have to write unless he wants to but when he does has something to say, is going on another one of those abroad-at-home journeys with his side kick Wallace Morgan, the artist.

The last time they went out for a New York magazine they got trimmed at poker in Pike county, Missouri, and Street has been dubious about the second jaunt. This time they go to Dixie.

Bert Leston Taylor wants them to look into that "southern cooking" thing and report veraciously and a lot of New York folk want to find out something about Irvin Cobb down in Paducah so they may stop off there although Cobb has already retained his lawyers.

W. H. Bumpus is an expressman in New York and Ima Boob isn't one but a bright young stenographer.

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passage of your head clear and you can breathe freely. No more hacking, sniffling, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Eli's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fact. Don't stay stuffed-up with a cold or nasty catarrh.

Jitting
The newest occupation Of our cousins and relation Is jitting. They jitt to town and back again, They turn about and tack again, While jitting.

Some distant jittress flaps her hand At the jittconer, to beat the band—O, jitting! And so he drives up to the pave Like some land life-boat bent to save The jitting.

They've started in to making love, Like trolleyers they hog and shove While jitting. They meet the same folks day by day; Each looks for each along the way. While jitting.

They run on streets where cars are not, And into many a careless spot, While jitting. It makes the traction magnates sore, To deafened heavens it makes them roar, This jitting.

The newest avocation Of our cousins and relation Is jitting. They jitt to town and back again; Make business brisk and slack again, By jitting.

Development of Human Jaw.

The bony structure of prehistoric human jaws was of astonishing massiveness and strength. They were buttressed, as it is with modern terrific violence. But when chin began to be worn, nature was obliged to furnish pads for them—to which circumstance Doctor Robinson attributes the origin of the fleshy covering that adorns this part of the face today, beautifying its contour.

NEW YORK STOCKS

New York, Oct. 11.—Further substantial gains were registered on the resumption of trading today, U. S. Steel being the notable feature, opening with a maximum gain of 1 1/2 to 3 1/2, its best quotation since 1910. Railroads added to last week's higher price with the advances of 1 to 3 1/2 points for Canadian Pacific, New Haven, Lehigh Valley, Reading and Southern Pacific. Specials were not neglected, Westinghouse, General Electric, Colorado Fuel, Crucible Steel and Lackawanna Steel were 1 to 2 points higher. Striking gains in Mexican Petroleum and American Smelting resulted from the proposed recognition of the Carranza government in Mexico.

Trading in the first hour was on the very large scale of activity which distinguished recent sessions, totalling over 400,000 shares and the balance of the forenoon showed to marked diminution.

Heavy realizing followed with some reverses in railways, especially Reading and Chesapeake and Ohio, but in the main these issues yielded little. Specialties bore the brunt of the decline Continental Can losing 8 points at 99 and New York Air Brake 5 1/2 at 14 1/2. There were many offsetting features, however, and later minor rallies came forward, Rock Island leading. Bonds were strong.

Specialties added substantially to early gains while rails, particularly reading and Union Pacific were busy. The closing was irregular.

Railway issues led today's early market but fell back later when interest in high priced war shares was revived.

WOMEN VOTE IN NORWAY

Christiania, Oct. 11.—Women are voting today for the first time in Norwegian general elections. Press forecasts predict the women's vote will bring large gains to the socialist representation in parliament, making that the strongest single party expects to maintain itself by a combination of three political groups. The socialists' platform is devoted largely to an anti-military propaganda. The government program includes old age pensions and restrictions of almost prohibitive character on sale of alcoholic liquors.

ROWLAND WILL BE RETAINED

Chicago, Oct. 11.—Clarence Rowland will be retained as manager of the Chicago American league club for the 1916 season, Charles A. Comiskey, owner of the team, announced today.

"There never was a chance of Rowland being dropped, regardless of all reports to the contrary," Comiskey said. "Of course, I was disappointed at not winning a pennant, but I am not blaming Rowland. He got all that could be asked out of an entirely new team."

CELEBRATE FOUNDING OF D. A. R.

Wood, president general of the D. A. R., and Mrs. Mary S. Lockwood, the only survivor of the founders as the principal speakers. Other features included a birthday cake, a yard in diameter and bearing 25 candles and the presentation of a real daughter of the American Revolution, Mrs. Mary M. Clark, of Alexandria, Va., daughter of a Virginia colonial trooper.

BULGARIANS ADVANCING ON RUMANIA

Paris, Oct. 11.—A Javias dispatch from Bucharest filed October 5, but delayed by the censor says:

"Reports from Dobrudja tell of the concentration of Bulgarian troops in cantonnements about three miles from the Rumanian frontier. These troops are engaged in constructing trenches and at one place the presence of artillery is reported. The newspaper Rumanie declares Rumania should intervene in the new theatre of war and that she keep her sword sheathed without risk of compromising her interests and honor."

EDISON DEAF, BUT HE "HEARS" ALL AT MEET

West Orange, N. J., Oct. 11.—Thomas A. Edison, chairman of the new naval advisory board, told his friends today how it happened that despite his deafness, he was able to preside over the meetings of the board in Washington last week, without embarrassment. Most of them had been wondering how it was possible for Mr. Edison to hear the discussions and motions by the members of the board.

Mr. Edison let them into the secret by explaining that it was

\$1,000,000 PER DAY

Pittsburgh, Oct. 11.—Reports of five banks of this city say that the pay rolls of Pittsburgh industries for October will amount to \$2,000,000, which is more than \$1,000,000 a day. Not for several years, it is said, has such a large sum been paid to employees in one month in the Pittsburgh district.

CHINESE AND JAPS BATTLE ABOARD SHIPS

Seattle, Wash., Oct. 11.—Scores of Japanese and Chinese sailors were warring out and bruises today, as a result of a free-for-all fight yesterday aboard the Great Northern liner Minnesota in port here. Two hundred of the Orientals, a majority of the crew of the steamer, participated in the fight which police reserves had difficulty in stopping.

The exact cause of trouble has not been determined, but officers of the ship said the Japanese and Chinese had been on unfriendly terms ever since the Minnesota sailed from the Orient.

The trouble began when sixty Chinese attempted to break up a Japanese birthday party. Instantly reinforcements appeared for both sides, and within a few minutes every Oriental aboard ship was fighting with fists, bottles, chairs, belaying pins or any other weapon that was handy.

IT SNOWS AT ELKINS

Elkins, W. Va., Oct. 10.—Autumn flowers in the height of glory were covered with snow yesterday when the earliest snowfall in the history of Elkins was recorded. Snow before the occurrence of frost was never before known in this section. The previous early snow fall record was October 10, 1906.

Registration In New York Heavy

New York, Oct. 11.—Political leaders were astonished today by the heavy registration of voters in this city as shown by the revised figures of the total for six days. The aggregate of 666,129 was nearly 7,000 more than registered last year, despite the fact that this is counted an "off year" when there is to be no election of governor and only two members of congress are to be chosen.

Leaders of the woman suffrage movement asserted that the increase was due largely to the earnest campaign which had been made in behalf of the suffrage cause. The anti-suffragists claim-

VIC STORER HIT BY ENGINE, SKULL IS FRACTURED

Another Inmate Of His Home Badly Hurt In Fall Down Stairs

BULLETIN.

Word from Mr. Storer's bedside at 3 p. m. was that he was resting fairly well but that his condition was still very bad. It was Joe Kyser, a slag unloader for Kelley Bros., who discovered Storer, having been attracted by the man's groans. Making a litter out of a board he and others carried him to his home.

By a strange turn of fate two accidents have befallen the Victor Storer household at 38 Rhodes avenue, New Boston within twenty-four hours and one of them it is feared may result fatally.

J. T. Blair, aged 38 year, an employee of Kelley Bros., Sunday morning made a misstep and fell down a stairway of the Storer home, where he boarded, fracturing his right arm and collar bone and was removed to Hempstead hospital. Mr. Storer himself followed the boarder to the hospital early Monday morning, having been struck by a B. & O. S-W "nigger local" engine, sustaining a fracture of the skull, left arm and right leg. He was immediately placed on the operating table and his condition is dangerous.

Stepped In Front of Engine

Mr. Storer, who is 59 years of age, following his usual custom, was walking down the N. & W. track about 5 o'clock on his way to work at the N. & W. Terminals when near the Breece Manufacturing company's plant he stepped off the N. & W. track to get out of the way of an approaching train, directly in front of the eastbound B. & O. S-W train, which he had failed to hear or observe.

Conductor John Conrad and Engineer Alfred Dakin were in charge of the local. The injured man was removed to his home and Dr. W. G. Cheney was called to attend him. Lynn's ambulance, which the day before, removed Blair to the hospital from the

same home, now rushed Mr. Storer to that institution.

Storer seemed to be suffering greatly from shock and it is feared that owing to his advanced age he will not recover, though the skull fracture is not regarded as a real serious one.

Was Surprised

Blair was greatly surprised when a nurse informed him of his landlord's accident and anxiously inquired about the details. He himself was still suffering considerably from the broken bone of his arm having protruded near the shoulder blade. Dr. Challis Dawson attended him.

Mr. Storer is one of New Boston's original and best known citizens.

OBITUARY

George Brown

The body of George Brown, found in the Ohio river Saturday afternoon, was removed Sunday from the Daehler morgue in this city to the late home of the victim near Fullerton, Ky., by Undertaker J. M. Morton, Sunday afternoon.

Funeral services will be held this afternoon, at 2 o'clock, at Bennett's Chapel, followed by burial in the church cemetery.

Nothing further has been unearthed by the authorities that would aid them in solving the mystery surrounding the drowning. There is nothing that would indicate foul play, and the most accepted theory is that the drowning was accidental.

Aaron Mace

Aaron Mace, of near Sciotoville, died October 7, aged 53 years. He was born in Lawrence county and had been a resident of Scioto county for twenty years. He leaves to mourn his death his wife and one son, John, who is in Colorado City, and who did not arrive in time for the funeral. Mr. Mace was one of Scioto county's best known citizens and was always kind to his family and neighbors. He will be greatly missed.

Funeral services will be conducted at the bereaved home, No. 1723 Grandview avenue, Tuesday afternoon, at one o'clock, by Rev. Charles Oakley, pastor of the First Christian church. Burial will take place in Greenlawn cemetery.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, love, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 82.

Dear Dolly—Some few months back I was going with a young man in this town and we were engaged. His people objected to him going with me and he quit coming any more. I never had anything against his people nor I never said anything about them. Now this almost broke me up. It seems like I can't get this off of my mind. He is going with another girl, but I don't go with any of the fellows for I don't like them. I am not satisfied anywhere. Now don't you think it would be a good thing for me to go away and stay away from here? Do you think if he had cared anything for me that he would have listened to his people? I hope you will answer my questions. I will thank you for any answer that you give.

A CONSTANT READER.
I certainly would not leave town. Stay right here and enjoy yourself. Don't let a spineless man mar your happiness. You ought to thank your lucky stars that he deserted you now instead of waiting until you were married. A man who is so easily won away from his sweetheart will not make a very good husband. There

are lots of handsome young marriageable men in Portsmouth, so don't lose any sleep over this one.

Dear Miss Dolly—Will you please tell me what's good for a thin, scrawny neck.

Use a good massage cream, one containing almond or olive oil preferred. It should be remembered that the massage should not be strenuous, that it ought to be done with just enough gentle friction to stimulate the circulation. Rub the oil or cream as far over your neck and shoulders as you can reach; then tap it into the pores with your finger tips, feeling for the muscles. Some of the nourisher should be left on the skin at night to be absorbed during the sleep. Throwing the head far back and then rolling it from side to side is a simple and effective exercise for making the neck shapely, and all deep-breathing exercises are most beneficial for both neck and shoulders. Eat plenty of fattening foods, such as bread and butter, rice, potatoes, sweets, carrots, turnips, sugar and eggs, raw eggs and milk. Take a dessert spoonful of olive oil after each meal. Drink plenty of cold water, and exercise as much as possible in the open air.

Dear Miss Wise—Will you kindly publish a recipe for grape wine? A READER.

Nine quarts of grape juice, three quarts of water, 6 cups of sugar. Heat to a boiling point, skim carefully and can while boiling hot.

My Dear Miss Wise—I have a very good friend whose birthday is approaching. I don't want to give her jewelry. Can you suggest anything else which you would think acceptable? A READER.

The art departments of the big stores have innumerable things

which would be acceptable. These things are dainty as well as useful.

Dear Dolly—How can I clean a rubber raincoat? MABEL.
Using a small brush, scrub the coat with soap and water to which a little ammonia has been added. Rinse thoroughly and dry in the air.

My Dear Miss Wise—My fiancé and I have been picking out the necessities for our home. We have had a little dispute about the dishes. He wants them decorated with flowers, while I prefer the plain. Can you tell us which would be preferable? ENGAGED COUPLE.

I don't agree with either of you. I believe that your table would look prettier were you to get white china with a small conventional design in gold on the edges. You can probably, at least compromise on this.

Light on a Dangerous Habit

Prominent periodicals everywhere are daily exposing the harmful effects of the drug, caffeine, in coffee.

Physicians, food experts, medical writers and editors largely agree that the cumulative effect of the 2 1/2 grains of caffeine in the average cup of coffee is responsible for the many troubles, such as sleeplessness, nervous prostration, heart palpitation, indigestion, etc., that subtly beset most regular coffee drinkers.

Some people seemingly hold up under regular coffee drinking without serious results, but modern thinkers, with respect for the fundamentals of health and longevity, are daily changing to

POSTUM

It is a pure food-drink made from wheat and a little wholesome molasses—contains no caffeine or other injurious drug.

When properly made, Postum has a flavor and aroma so much like Old Gov't Java that one is inclined to forget coffee within a very short time.

Postum comes in two forms: The original, Postum Cereal, requires thorough boiling, 15c and 25c packages; Instant Postum, the soluble form, is made in the cup with boiling water, 30c and 50c tins. Both kinds are equally delicious and the cost per cup is about the same.

Mardi Gras Proved To Be Rollicking As Ever, The Winners

THE WINNERS

First, Gentlemen's best costume, Thomas E. Chamberlain, of 817 Chillicothe street. He will receive \$5.

Edgar Ross of 1701 Seventh street, won second prize \$3.

First, Ladies' best costume, Miss Grace Clendenin, 1203 Thirteenth street. She will receive \$5.

Miss Edna Wiget, of 1817 Oak land avenue, won second prize, \$3.

Behind masks that concealed identity and opened up new avenues of fun, Portsmouth wound up the greatest Korn Karnival in its history Saturday evening when the usual climax to this big show, the ever welcome Mardi Gras, with its masked revelers was held.

Exceeding in number all other affairs of the kind, the Mardi Gras parade was a riot of fun and color. It seemed as if all Portsmouth hid its identity behind various colored masks and the old town had gone on a horn-tooting spree. The din at times was terrific and as the revelers staged their annual parade, a volume of noise rent the crisp October air.

It was a rollicking and joyous

finish to one of the most memorable weeks in the city's history.

Every conceivable costume was seen in the parade. There were grotesque ones by the hundreds; there were exceptionally clever ones; this and that character was admirably portrayed; there were floats, men on horseback, and the end came with an automobile section. The streets were jammed with people to witness this event, as it is always brimful of wholesome fun. Competition for the prizes awarded above was sharp, and many really worth while costumes were seen in the pageant of color. Many prominent characters were portrayed, and undoubtedly the parade was the best of the kind ever staged in Ohio.

Good cheer predominated and there was no rough stuff to mar its beauty. Chairman Frank W. Sheridan and his aides, Dan Lloyd, E. W. Gableman and Lin Wittenberg handled the parade splendidly.

Promptly at 7:30 it moved from Second and Market streets, came east on Second to Chillicothe, north on Chillicothe street to Eighth, east on Eighth to Weller, then south on this street to Gallia, west on Gallia to Chillicothe, and then south on Chillicothe to Second, where the parade disbanded.

ELKS INDOOR FAIR WAS SUCCESS IN ALL WAYS

The Elks' Indoor Fair, conducted all last week in their new home in the Play House building, was a huge financial success, although it will require an audit of the bills and receipts to determine the exact amount of the net proceeds, which will exceed \$1000.

The fair was one of the enjoyable sights of the carnival, and contributed to the pleasures of visitors from at home and afar. The lodge is deeply grateful, also, to the large number of young

men and girls who assisted the committee during the week. It was due to their efforts, largely, that the receipts during the week reached such a satisfactory sum.

Now that the fair is over, the finishing touches will be applied to the interior of the two floors occupied by the Elks, and the furniture will be installed as soon as possible. The lodge hopes to be permanently settled in its new home by the first of November.

Definite Steps Are Taken For New Boston Catholic Church

The first definite steps towards establishing a Catholic church and congregation at New Boston were taken at a splendidly attended and enthusiastic meeting held at the Thalian Theatre Sunday evening.

Rev. Father T. A. Goebel opened the meeting by explaining its object and purposes and Rev. Father J. E. McGuirk also delivered a stirring address in encouraging the project. Father Goebel then started a building fund with quite a number of pledges of monthly payments, and arrangements were made to enroll as members all foreign born Catholics of the village. A snug sum was raised at the meeting which together with \$128 previously paid and \$135 subscribed by others,

materially brightened the prospects for an early realization of hopes and plans.

The Thalian theatre was rented for temporary use as a Sunday school, commencing with next Sunday afternoon at 2 o'clock.

Two of the Sisters of St. Francis, of St. Mary's parish, will have charge of the Sunday school. Meanwhile Father Goebel will take options with a view of securing a suitable site for a church and parochial school. A two room school building will be erected first or as soon as a good location is secured and funds are available. Rt. Rev. James J. Hartley, Bishop of Columbus, is expected to provide a name for the proposed new church and congregation some time this week.

LOST DURING THE PARADE

Police Officer Joe Bonzo found no less than three lost children on Chillicothe street after the Mardi Gras parade Saturday night, but safely restored all of them to their parents. An aged pensioner named Crum from Blue Run was also reported lost, having become separated from his wife at a ten cent

store but was located shortly after the police received the report.

POISONED HIMSELF AT 40!

Death by slow poison is killing many a man, young in years, who has made the fatal mistake of failing to understand the warnings of kidney trouble.

When your kidneys begin to lag in throwing off natural poisons that accumulate in your body, the first warnings come in little twinges or stiffness across your back and hips. Urination may be too frequent; you may feel "tired" in the morning when you should feel your best.

The best known remedy for these troubles is GOLD MEDAL, Haarden Oil Capsules. This remedy has stood the test for more than 200 years since it was first produced in the ancient laboratories in Haarden, Holland. It acts directly on the kidneys and bladder and gives relief at once, or your money will be refunded. GOLD MEDAL, Haarden Oil Capsules are imported direct from Holland, and can be had at any drug store. Prices 25c, 50c and \$1.00. Accept no substitute.

Kidnapping is Charged

The police received a message from the Huntington, W. Va., authorities Saturday night, asking them to keep a lookout for one Frank Wering, who is said to have kidnapped a child there. He was reported to have crossed the Ohio river at Tronon. No trace of him was found here.

Prohibition Agitation

The way to stop Prohibition AGITATION is to vote "NO" on the prohibition amendment at the election November 2.

PROHIBITION MEANS AGITATION. Ohio has been assaulted time and again by the professional agitators who are now espousing the prohibition cause. Only a year ago the voters defeated prohibition—but the question is on the ballot again this fall!

Prohibition Means Constant Agitation Communities and individuals alike have been defamed and slandered. Prohibition campaigns have turned the state upside down and inside out, and yet Ohio in a prohibition campaign is Peace Personified when compared with the Ohio that would emerge from a prohibition "victory."

Prohibition has not settled the liquor question anywhere that it has been tried, and it has always opened a fertile field for the agitator.

West Virginia has so-called prohibition—and the Governor has threatened to call out the state troops to quell disturbances that grow out of a fearful situation.

Kansas has so-called prohibition—and the whole state is in everlasting turmoil.

Tennessee has so-called prohibition—and if an attempt were made to stop the sale of liquor there the jails would be filled with "wet" and "dry" alike.

Maine has so-called prohibition—and the speakeasy and bootlegger flourish there as in every other "prohibition" state.

Incessant Turmoil Would follow prohibition in Ohio and it would all be so futile, so unnecessary—

Because there is nothing in law, custom or practice to hinder any individual from being as "dry" as he pleases.

There is nothing under the local option laws of Ohio to prevent any municipality or any township from being as "dry" as its voters may decide.

Why then embroil the state, create warring communities, and run counter to individual rights by constant Prohibition Agitation that leads nowhere else than to Prohibition Failure and Prohibition Hypocrisy?

Let Well Enough Alone.

A Prohibition Appeal to the Intelligent Voter!

Mrs. Mary Harris Anner, of Madison, Ga., known as the "Georgia Cyclone," is a favorite speaker at prohibition meetings in Ohio. The Cleveland Plain Dealer, of Monday, October 4, 1915, reports a meeting in Cleveland on Sunday, October 4, 1915, and quotes the "Georgia Cyclone" as follows:

"During the campaign in Georgia God once burned a railroad trestle to delay the arrival of a group of liquor men at a meeting. "In another instance God killed a man on his way to the polls to prevent his voting for the liquor side. The man who was accompanying the liquor advocate had to take the body home and also lost his vote. Thus God, by killing one man, deprived the liquor element of two votes and we won that county by just two votes."

SEPARATE BALLOT

ELECTION, NOVEMBER 2, 1915

An Anti-Prohibition Appeal to the Intelligent Voter.

Prohibition would mean a special session of the General Assembly to enact new prohibition and search and seizure laws. It would mean that the state would be overrun with prying "dry" detectives. It would mean the loss of work to 100,000 men who are now contented in good paying jobs. It would mean that property values aggregating \$450,000,000 would be thrown into the scrap heap, with very little salvage. It would mean the loss of \$15,000,000 in taxes to the state of Ohio and its political subdivisions. It would mean the loss of \$17,000,000 paid in taxes paid by the liquor industry in Ohio to the national government—and right now every patriotic citizen is trying to work out a plan to help Uncle Sam secure additional revenues instead of taking revenue away from him.

I AM PROHIBITION.

I come to you with large promises. I am the vehicle that makes possible a standing army of professional agitators who, through me, live on the fat of the land. I arouse hate and stir up the passions. I am a 42 centimeter gun or a toy pistol, as occasion requires. I have the attributes of the chameleon and change my colors to suit the demands of those I seek to win to my standard. I cheat. I make false promises. Truth has no claims on me—

I am Prohibition.

I am narrow. I am blind. I am conceited. I come to you on angels' wings and lie to you like the devil. I am a magnet that attracts to me gold and silver and even copper. Facts are repellant to me. I destroy. I take jobs away from contented men and women. Death to business follows in my wake. I am opposed to personal rights, unless such rights come from me. I am opposed to property rights, except when my property is concerned.

I am Prohibition.

P. H. S. SWAMPED BY FAST WELLSTON ELEVEN

It was just a question of the stronger team winning. Saturday when Portsmouth High School's eleven bunted the Wellston high school team and went down to defeat by a score of 6 to 0, one of the worst defeats ever handed a Red and Blue aggregation on home or foreign gridiron.

Captain Duesell was out of the game Saturday and the boys missed his heavy work on the line where he can always be counted on to make a hole for a big gain on a line plunge.

The Wellston lads outwitted the locals ten pounds to the man and Hanley and Gillen half backs who are fast as lightning and no one on the local eleven was fast enough to catch the pair who simply ran away with the jugskin when they got it within their grasp.

All the scoring was done on straight football, the Red and Blue boys breaking up all but one of Wellston's forward passes. Portsmouth worked several successful forward passes for big gains but when they threatened the Wellston goal the Wellston line stood as a veritable fortification.

Portsmouth high school will play her first game at home Saturday when Huntington high school's eleven evades the locals gridiron.

Following is the locals' lineup: Nuttall, L. E.; Quinn, L. T.; Lewis, L. G.; Manning, G.; Coleman, H. G.; Grassman, R. T.; Brandle, R. E.; Morris, Q. B.; Wilson, P. B.; Shoemaker, Liff B.; Thomas, R. B.

Brown, Chicago, 17 and 8; Crandall, St. Louis, 21 and 10; Reulbach, Newark, 21 and 10; Allen, Pittsburgh, 23 and 12; Cullop, Kansas City, 22 and 12; Plank, St. Louis, 21 and 12; F. Smith, Baltimore-Brooklyn, 10 and 6; Packard, Kansas City, 19 and 12; F. Anderson, Buffalo 19 and 12; Rogge, Pittsburgh 17 and 11; Schulz, Buffalo 21 and 11.

Cubs Are Beaten

Chicago, Oct. 11.—The Chicago American League team won the championship of Chicago four games to one from its National League opponent Sunday by winning yesterday's game, 11 to 3. Lavender, who shut out the Americans in the second game was hit hard today and this, with erratic fielding, gave the White Sox their victory. The score: Nationals . . . 0 1 0 0 0 1 4 0 3 8 2 Americans . . . 0 1 0 0 5 0 0 0 11 2 Lavender, Pierce, Standridge and Archer, Russell and Schalk.

What Is Yours?

One must admit after looking over the tall tale figures of the first two games that that eminent slugging duo, Cravath and Luderus have not sloughed the pill to any brutal extent. Belief is expressed in these parts that the Boston lumberers have secured the number of these reputed "apple crushers." Such a trick as has been turned and there never was a demon at the plate who did not have a weakness. Bonus Wagner's is ice cream.

KILLEFER'S ABSENCE FELT

There is no getting around that the absence of Killefer from the game has greatly lessened the Phils' chances of coping. Were he behind the plate with his old head, arm of steel and baseball knowledge the Boston team would not attempt so much fancy stuff on the base paths. Burns is a clever receiver, but he is likely to crack under the lash. It was a tough break for Moran to lose the services of his versatile backstop just when his aid was needed most.

GRANOMA USED SAGE TEA TO DARKEN HAIR

She made up a mixture of Sage Tea and Sulphur to bring back color, gloss, thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

COMPLIMENTS K. K. LEADERS

The mayor made public the following letter Monday:

October 11, 1915.

The Committee,
My Dear Sirs:

To me it seems that wherever there are those who produce any great public event, who conceive the plan, likewise interest others in its practicability, assemble the

multiplicity of features necessary to the entertainment and who finally produce in all its reality and with such pronounced success every component part of the event, as was the late Korn Karnival, some means of expressing appreciation should be forthcoming. I am, however, sorry that words fitting for such expression are not

at my command. Let it be sufficient, however, when I say in behalf of the citizens of this city that they express manifold appreciation for the great service you have rendered them in so widely advertising the business interests and the hospitality of Portsmouth and its people. Certainly from this publicity much in the way of real lasting

benefit should, and I am very certain will, accrue to all, especially to those business men and other citizens who so willingly contributed their service to the end that success was assured.

I beg the honor and ask the privilege of being,

Very respectfully,

ADAM FRICK, Mayor.

Woman Attacked; She And Husband Capture Suspect

Mrs. Mayme Grady, wife of Charles Grady, while awaiting the return of her husband from an errand, was grabbed by a man near the Turkey building Saturday night. A few minutes later she and her husband found a man crouching behind a tree on Second street and she identified him as her assailant. They marched him to police headquarters where he gave the name of Morgan Collier and said he was employed with the Sheridan-Kirk Contract company on the government dam jobs. He protested that his wife was dangerously ill and demanded his release, claiming he was innocent and that he had never before seen the woman let alone attack her. He was fined \$10 and costs and permitted to go after giving an order on his time.

incidents passed unnoticed at the time and nothing similar has developed.

The crowd, which it was thought would exceed 45,000 persons by game time, had its beginnings in a little knot of persons who gathered at the gates last evening. Irregular lines formed at times through the night, but a nip in the air forced many to take exercise. Some, however, seemed impervious to the weather, and improvising beds out of planks, newspapers, overcoats or chairs, went to sleep on the threshold of the park. Daybreak found a group of somewhat more than 100 persons, most of them boys.

Most of those who waited sought seats in the third base bleachers. These, at a dollar each, were as good as the seats at first base for which \$2 was charged, but with reservation assured to ticket-holders. There were 10,000 of these dollar seats. Arrangements to care for the bleacherites at 50 cents each provided for the admission of about 8,000, more than half of whom were forced to stand behind a fence stretched along the farthest recess in centerfield. A further opportunity for positions in the grand stand was offered by the sale of about 5,000 admissions entitling the purchasers to stand in the rear spaces of the stand.

These numerous provisions for the purpose reduced the present sale of such tickets as spectators had been able to secure and traffic in seats today was almost negligible. A few vendors were arrested by plain clothes officers, who formed part of the force of 400 policemen whom Superintendent Crowley directed in various activities in and about the field.

GREEK SHIP TORPEDOED

BULGARIANS ADVANCING ON RUMANIA

Paris, Oct. 11.—A Havas dispatch from Bucharest filed October 6, but delayed by the censor says: "Reports from Dobruja tell of the concentration of Bulgarian troops in cantonments about three miles from the Rumanian frontier. Those troops are engaged in constructing trenches and at one place the presence of artillery is reported. The newspaper Roumanie declares it is a should intervene in the new theatre of war and that she keep her sword sheathed without risk of compromising her interests and honor."

KIPLING'S SON IS WOUNDED

London, Oct. 11.—Rudyard Kipling has received no further news of his son who was wounded and reported missing in the north of France. He was only slightly wounded when last seen, and his parents are hopeful that he suffered no more serious fate than being taken prisoner inside the German lines. Mr. Kipling sent to the Associated Press today the following message:

"I should be obliged if you would make public in America the fact that up to date my son John is reported wounded and missing, not wounded and believed killed, as stated in the press a few days ago."

John Kipling, of the Irish Guards, only son of Mr. Kipling, was but 13 years old when he entered the British army. Although of delicate health, he finally overcame the objections of his parents, who were reluctant to have him enlist.

WOMEN VOTE IN NORWAY

Christiania, Oct. 11.—Women are voting today for the first time in Norwegian general elections. Press forecasts predict the woman's vote will bring large gains to the socialist representation in parliament, making that the strongest single party expects to maintain itself by a combination of three political groups. The socialist platform is devoted largely to an anti-military propaganda. The government program includes old age pensions and restrictions of almost prohibitive character on sale of alcoholic liquors.

Paris, Oct. 11.—Three-quarters of the city of Belgrade has been destroyed by six thousand Austro-German shells and the fighting continues, according to an Athens dispatch to the Matin.

Telephone communication between Belgrade and Nish has been cut.

One hundred and fifty thousand Austro-German troops have crossed the Save and Danube rivers into Serbia, according to reports in diplomatic circles at Athens, says the correspondent of the Havas agency. These troops were stopped by Serbian artillery before they could penetrate beyond the border it is asserted and Belgrade is the only point at which they have gained a foothold on Serbian soil.

Germans in Athens are credited with having circulated a report that the Entente Allies had been unable to send sufficient forces to help Serbia and had renounced the expedition but the forwarding of Anglo-French troops from Saloniki continues uninterrupted.

The Havas correspondent says cryptically "the importance of the expeditionary corps surpasses the numbers given hitherto."

ONE MAN KILLED, 25 HURT IN SHOE FACTORY EXPLOSION

Weymouth, Mass., Oct. 11.—One man was reported killed and 25 injured as a result of a boiler explosion in the shoe factory of George C. Strong here early today. The factory caught fire but the flames were soon under control. A call was sent to neighboring towns for physicians.

CLOSING OF SALOONS HITS CRIME RECORD

Chicago, Oct. 11.—Closing of saloons in Chicago on Sunday for the first time in forty-four years resulted in the day passing with the lowest crime record in the history of the police department. Chief of Police Healey announced today.

Out of the 7,152 saloons in the city, only 28 were found to have violated Mayor Thompson's closing order, which became effective at midnight Saturday. Most of violations were of a minor character, only one saloon keeper being arrested. Saloons in the suburban districts where the state closing law was not enforced, received an unusually brisk trade from automobile parties.

There were only sixteen arrests made for drunkenness yesterday.

and forty-seven on Saturday, as compared with an average of 243 for the two days during several months past. Some of the downtown bars and a few in the densely populated districts opened their places for business between last night and one o'clock this morning but the amount of trade was not up to expectations. Saloon keepers estimated that they lost \$400,000 yesterday as a result of being obliged to close.

A GROWING CITY.

Every time the editor of The Times goes to Columbus the city appears more beautiful. Improvements are constantly being made and today the city is in the very front rank of progressive American municipalities. The repaving of High street was a fine job and it has greatly enhanced the appearance of the Capital City of our state.

Columbus is one of the best convention cities in the nation, and our old friend George J. Karb, who presides as mayor, is the ideal person to extend the welcoming hand to delegates. He can make a person feel more at home than any one we can recall. And the Capital City today is one of the best governed municipalities in the country.

There are no large cities that can excel Columbus in the provisions made for the health and comfort of the people. Sewers have been provided on an extensive scale and the sewage purification plant is a wonderful institution. A supply of water that has been pronounced by government experts to be one hundred per cent pure has assisted in reducing the death rate to a minimum.

The remarkable success which has attended Columbus in her operation of a municipal light plant is looked upon as marvelous. Water rates have been lowered, the tax rate is low enough to be an inducement to own homes and the cost of street lighting and of water has been materially reduced.

Columbus has cause to be proud of the manner in which her affairs are being handled. The Capital City will make a serious mistake if she does not continue George J. Karb in the mayor's office.

LIKED OUR KARNIVAL.

Mr. Emmet H. Steger, who was in Portsmouth last week in charge of the Norfolk & Western exhibit of agricultural products, in a talk with us about the Portsmouth Karnival, stated that one thing especially to be commended in the Karnival was the absence of shows of the street-fair and side show variety. "Wherever you find this class of attractions you will find that people begin to tire of the exhibitions, and that they lose prestige. These shows simply cause people to spend their money without giving them anything helpful in return, and in my experience, and I have been making from 20 to 30 exhibitions a year, I have not found a place where fairs or Karnivals were helped in any degree by the presence of side show attractions. Portsmouth is to be congratulated upon keeping her Karnival free from such attractions."

Mr. Steger also spoke of the general hospitality with which Portsmouth greeted her visitors, and the air of good feeling that seemed to prevail in the community. He said that he had noted with pleasure the increase in interest that was being taken by the farming sections of Scioto county in scientific agriculture, and he felt certain that as a result there would be a decided increase in the productivity of our farms during the next few years. "There is not any better corn land in the world than in the Scioto Valley," said Mr. Steger. "I am going to take samples of Scioto corn with me to Richmond, Virginia, where I will be with the N. & W. exhibit next week at the Virginia State Fair. I am sure that our Virginia farmers will be deeply interested in what the Scioto Valley farmers are doing in the corn raising line."

The Norfolk & Western maintains a fine department of agriculture and those in charge are constantly on the job in an effort to advance the agricultural interests in N. & W. territory. A great work is being done and the results are most satisfactory.

Judge E. E. Corn, of Ironton, has written a letter to the commissioners of Lawrence county, in which he advocates the release of prisoners confined in the county jail, in the repair of county roads. He recites that a number of men are confined in jail for minor offenses, cutting their heads off while they would be better off if they were working. At the same time there are a number of roads in wretched condition and the prisoners could be used to good advantage on them. There seems no reason why this should not be done, not only in Lawrence, but also in other counties. The men should be paid certain stipulated amounts and the money turned over to their families to help support them while the husband or father is in prison.

Well, the Karnival is over. It was a success in every respect. It carried the name and the fame of Portsmouth into every part of this section of the country. It brought thousands of people here, and they marveled at the growth and prosperity of the town. It brought old friends and new ones to our merchants, it opened up new avenues of trade. It was worth the effort expended by the gentlemen who managed it. And it is worth greater effort to make the next one as educating, entertaining and novel in its features. Let there be no backward step.

Every railroad in the country making money and shouting for more cars! The stock exchanges reporting the greatest business for twenty-five years! Crops that are "busters" and prices that make the farmers sing for joy! And yet Harry Daugherty, senatorial candidate, who is making more money now than he ever made in his life, is around mourning and despairing of the republic and wants the tariff tinkered with.

TIRED BUT HAPPY.

THE BOPE INCIDENT.

George W. Bope should never have been appointed chief inspector of work shops and factories in the first place. He had no known qualifications for the place except having made political speeches during the last campaign. He at least should have asked decently and not have cast reproach upon his sponsors as he has done by his bad habits and general unseemly conduct. Within a week after taking office, and he should have no sympathy now that his resignation has been asked. If he does not have the grace to resign, he should be removed, and no attention paid to his mouthings, or threats to tell alleged secrets of inner workings of the Willis campaign. Any thing that Bope might have to say or tell, if he knew anything, is discredited in advance. The best thing he can do for himself is to drop out of public sight.

The prompt action of the administration in removing Bope is to be commended as highly as it's previous action in naming him to an important state office is to be condemned.

T. N. Patterson, cashier of the Pickett National Bank, has a farm and devotes some attention to raising hogs and cattle. The other day he shipped fifty hogs to Columbus and sold them at an average price of \$30 each, or \$1,500 for the lot. An expert said that the profit on each hog would be at least \$15 and probably would be about \$18. There is something in those figures that ought to appeal to Scioto county farmers.

The World's Series games are megaphoned out play by play at The Times base ball party each afternoon while the game is going on. Boyd Jarrell, editor of the Huntington Herald-Dispatch, has taken a wife. Now if Boyd will only make as good a husband as he does an editor, we are sure that he will be taking premiums in every "model husband" contest in West Virginia.

Some people have an idea that it is easy to run a newspaper during an event like the Karnival. Far from it. We had to work harder the past few days to get out an interesting paper than we have had to do for weeks. When people's minds are all bent in one direction it is hard to get them to think of news.

For a time, at least, the most noticeable thing about the entry of Bulgaria into the war will be the advent of a new "claimer" in the telegraph line.

Huntington charity workers are advocating a whipping post for lazy men who will not work to support their wives and children. It sounds good. Twenty lashes ought to make the lazy gams go away and never come back if anything will.

NEW-YORK-DAY-BY-DAY.

O-O-MEINTYRE.

New York, Oct. 11.—Charles Dillingham may now enjoy a charitable or so privately. To charity publicly would be rubbing it in.

When the huge Hippodrome was taken over by him the rumor went zipping up and down the Rialto that at last Dillingham had become the owner of a "white elephant."

Before going into details it might be stated that "Hip-Hip-Hooray!" is already the biggest success the Hippodrome has ever known and is having the biggest crowds in the history of the house.

"Hip-Hip-Hooray!" is a smashing spectacle that fairly carries the audience off their feet and leaves them breathless. The audience begins gasping when the curtain goes up on the first scene showing Brooklyn Bridge and the sky lines from a New York roof. The scene is worked out even to the traffic and street cars crossing the bridge.

The next scenes "Grant Central Station," "On Fifth Avenue," and "The Cascades at the Biltmore Hotel" are worked out so cleverly that the audience can hardly believe it is a theatre.

There is the John Phillip Sousa Band reinforced by the regular Hip-Hip orchestra. At the close of the show when the audience expects all thrills to be exhausted there comes the big scene of all—"Fighting at St. Moritz." Scores of dancers dance on real ice in a reproduction of the celebrated resort and as a final thrill some skaters glide off the mammoth hills.

Bide Dudley tells of a well known Irish comedian who was ill recently and his physician told him he'd have to stop drinking for a while.

"When you feel like taking a drink," said the doctor, "eat a gun drop." The next day the comedian was at "Thirty-eighth street and Broadway" when the subway covering caved in.

He just missed going into the hole. Very much excited he rushed into a saloon nearby and, confronting the bartender, yelled: "For the love of Mike gimme a gun drop."

Julian Street, who doesn't have to write unless he wants to but when he does has something to say, is going on another one of those abroad-at-home journeys with his side kick Wallace Morgan, the artist.

The last time they went out for a New York magazine they got brimmed at poker in Pike county, Missouri, and Street has been dubious about the second junk. This time they go to Dixie.

Hert Luston Taylor wants them to look into that "southern cooking" thing and report veraciously and a lot of New York folk want to find out something about Irvin Cobb down in Paducah so they may stop off there although Cobb has already retained his lawyers.

W. H. Bumpus is an expressman in New York and Ina Booth isn't one but a bright young stenographer in a theatrical office on Broadway.

John Paul Jones has failed to get in the New York University's Hall of Fame. He has to wait while others more famous get in. One of the reasons for not landing was that Jonts sold his services to Russia.

One of them elected this year to the Hall of Fame was Joseph Henry. Now all together, quickly, now, what do you know about that great man?

Opportunity yawns like the Grand Canyon for some wide-awake young man to manufacture pop-corn balls on Broadway. Joe Platt, the editorial writer, has scoured the town for pop-corn balls and the only place they sell them the charge is 25 cents for one. And they are anemic looking specimens at that.

"Very Good Eddie" is the name of a new musical production.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. You jogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed with a cold or head.

Jitting

The newest occupation of our cousins and relation is jitting. They jit to town and back again. They turn about and tack again. While jitting.

Some distant jittress flaps her hand. At the jittoneer, to beat the band—O, jitting!

And so he drives up to the pavo like some loud life-boat bent to save.

The jitting. They've started in to making love, like trolleyers they hog and shove.

While jitting. They meet the same folks day by day. Each looks for each along the way.

While jitting. They run on streets where cars are not, And into many a careless spot.

While jitting. It makes the traction magnates sore. To defensed heavens it makes them roar.

This jitting. The newest avocation of our cousins and relation: Is jitting. They jit to town and back again; Make business brisk and slack again.

By jitting. —Strickland Gilliland.

Louder Please! We met Fred D. Keister, of the Pevano News on our way to a moving picture show the other day and as he wished to hear of the things from the old town, invited Fred to take in the show with us and he readily accepted. We got comfortably seated about the middle of the theater at a time when the advertising films were being shown. When the play pictures were shown on the screen and Fred saw the lips of the actors move, but couldn't hear any one speak he yelled out, "Louder, please! Speak louder!" —Remus Index.

We got comfortably seated about the middle of the theater at a time when the advertising films were being shown. When the play pictures were shown on the screen and Fred saw the lips of the actors move, but couldn't hear any one speak he yelled out, "Louder, please! Speak louder!" —Remus Index.

VIC STORER HIT BY ENGINE, SKULL IS FRACTURED

Another Inmate Of His Home Badly Hurt In Fall Down Stairs

By a strange turn of fate two accidents have befallen the Victor Storer household at 38 Rhode avenue, New Boston within twenty-four hours and one of them it is feared may result fatally. J. T. Blair, aged 38 years, an employee of Kelley Bros., Sunday morning made a misstep and fell down a stairway of the Storer home, where he boarded, fracturing his right arm and collar bone and was removed to Hempstead hospital. Mr. Storer himself followed the boarder to the hospital early Monday morning, having been struck by a B. & O. S. W. "nigger local" engine, sustaining a fracture of the skull, left arm and right leg. He was immediately placed on the operating table and his condition is dangerous.

Stepped In Front of Engine
Mr. Storer, who is 59 years of age, following his usual custom, was walking down the N. & W. track about 5 o'clock on his way to work at the N. & W. Terminal when near the Breese Manufacturing company's plant he stepped off the N. & W. track to get out of the way of an approaching train, directly in front of the eastbound B. & O. S. W. train, which he had failed to hear or observe.
Conductor John Conrad and Engineer Alfred Dakin, who were in charge of the local, had the injured man removed to his home and Dr. W. G. Cheney was called to attend him. Lynn's ambulance, which the day before, removed Blair to the hospital from the same home, now rushed Mr. Storer to that institution.
Storer seemed to be suffering greatly from shock and it is feared that owing to his advanced age he will not recover, though the skull fracture is not regarded as a real serious one.
First Victim Was Surprised
Blair was greatly surprised when a nurse informed him of his landlord's accident and anxiously inquired about the details. He himself was still suffering considerably from the broken bone of his arm having protruded near the shoulder blade. Dr. Challis Dawson attended him.
Mr. Storer is one of New Boston's original and best known citizens.

CHINESE AND JAPS BATTLE ABOARD SHIPS

Seattle, Wash., Oct. 11—Scores of Japanese and Chinese sailors were nursing cuts and bruises today, as a result of a free-for-all fight yesterday aboard the Great Northern liner Minnesota in port here. Two hundred of the Orientals, a majority of the crew of the steamer, participated in the fight which police reserves had difficulty in stopping.
The exact cause of trouble has not been determined, but officers of the ship said the Japanese and Chinese had been on unfriendly terms ever since the Minnesota sailed from the Orient.
The trouble began when sixty Chinese attempted to break up a Japanese birthday party. Instantly reinforcements appeared for both sides, and within a few minutes every Oriental aboard ship was fighting with fists, bottles, chairs, belting pins or any other weapon that was handy.

The Movies

"Juggernaut" Comes to Lyric

One of the most thrilling motion pictures ever produced by the Vitagraph company will be shown Wednesday at the Lyric theatre. It is called "The Juggernaut" and is in six parts. The interest of the audience never wavers from the start of the opening scenes until the climax, when a heavy express train crashes through the rotting timbers of a trestle and plunges out of sight in the waters beneath. This scene alone is said to have cost the company \$25,000 and it is undoubtedly the most complete wreck scene ever staged.
"The Juggernaut" was written by Donald F. Buchanan and produced by Ralph W. Ince. The best of the Vitagraph stars are used in the cast, which includes Anita Stewart, Julia Swayze Gordon, Earle Williams, William Dunn, Eulalie Jensen, Frank Currier, Paul Seardon and Jack Brown.

No picture ever shown in town before will compare with this great production—the story of the "Juggernaut" will hold you "spellbound" from beginning to end. The acting is simply great, and some of the "thrilling" scenes will be remembered as long as you live.

Mrs. Leslie Carter in "Du Barry," Six Parts Columbia Today

George Kleine's "Du Barry" featuring the original cast of the famous stage play, is said to be the most magnificent set and richly caparisoned picture in the history of the silent drama. It is reasonable to suppose that the enterprise and business initiative which actuated George Kleine in gathering together a company of professionals of the caliber of Mrs. Leslie Carter, Hamilton Revelle, Campbell Gollan and Richard Thornton would not fail in those other essentials of the masterpiece. All Europe was rumormongered to obtain hangings, furniture of various kinds, equipments and what not, correct as to period. Even the long forgotten arms of Du Barry are embrodered on the beautiful coverlet of Mme. Du Barry's bed, which the casual French student will readily translate, "houfex en avert" (to step forward or make progress). In these details "Du Barry" is without peer or precedent in picture making.
Don't fail to see "Du Barry" at the Columbia today. First afternoon show starts promptly at 1:30 and the first evening show at 6:30. No advance in prices for this attraction and all seats will be ten cents.

Pittsburgh, Oct. 11—Reports of five banks of this city say that the pay rolls of Pittsburgh industries for October will amount to \$32,000,000, which is more than \$1,000,000 a day.
Not for several years, it is said, has such a large sum been paid to employees in one month in the Pittsburgh district.

U. S. TO RECOGNIZE CARRANZA FACTION

Washington, Oct. 11—The governments of Bolivia, Uruguay and Guatemala remained to be heard from today in approval of the United States government in deciding to recognize the Carranza government in Mexico.
The other countries which participated in the Pan-American peace conference through their diplomatic representatives, Argentina, Brazil and Chile, already have sanctioned the work of the conference. The approval of the first-named governments is momentarily expected.
The next step to be taken by the United States will be determination of the form in which recognition shall be accorded. It is expected to be extended this week, possibly through formal notification, to Eliseo Arredondo, Carranza's official agent here. Prohibition of shipment of arms to factions opposed to Carranza government then will follow.

Although an arms embargo will materially weaken the resources of the Villa element, M. Diaz Lombardo, foreign minister of the convention government, in a formal statement given out here, announces that the struggle will be continued in Mexico. Similar advice has been received by the state department from American Consular Agent Carothers, following an interview with Villa.

Now Intrigue Means to Embarrass.
Words jump between antiquity and fashion. It was but a few years ago that "obscure" came into constant use by the literary. And now "intrigue" is a corpse dug up from the past and in constant use. "It intrigues me" is the phrase. And in dictionaries the sense of "intriguing" to "embarrass" is marked obsolete. It's most emphatically alive.

First, Ladies' best costume, Miss Grace Clendotin, 1203 Thirtieth street. She will receive \$5.
Miss Edna Wiget, of 1817 Oakland avenue, won second prize, \$3.
Behind masks that concealed identity and opened up new avenues of fun, Portsmouth wound up the greatest Korn Karnival in its history Saturday evening when the usual climax to this big show, the ever welcome Mardi Gras, with its masked revelers was held.
Exceeding in number all other affairs of the kind, the Mardi Gras parade was a riot of fun and color. It seemed as if all Portsmouth hid its identity behind various colored masks and the old town had gone on a horn-tooting spree. The din at times was terrific and as the revelers staged their annual parade, a volume of noise rent the crisp October air.
It was a rollicking and joyous finish to one of the most memorable weeks in the city's history.
Every conceivable costume was seen in the parade. There were grotesque ones by the hundreds; there were exceptionally clever ones; this and that character was admirably portrayed; there were floats, men on horseback, and the end came with an

OBITUARY

George Brown
The body of George Brown, found in the Ohio river Saturday afternoon, was removed Sunday from the Daehler margin in this city to the life home of the victim near Fullerton, Ky., by Undertaker J. M. Morton, Sunday afternoon.
Funeral services will be held this afternoon, at 2 o'clock, at Bennett's Chapel, followed by burial in the church cemetery.

Nothing further has been unearthed by the authorities that would aid them in solving the mystery surrounding the drowning. There is nothing that would indicate foul play, and the most accepted theory is that the drowning was accidental.

Aaron Mace

Aaron Mace, of near Sciotoville, died October 7, aged 52 years. He was born in Lawrence county and had been a resident of Scioto county for twenty years. Dr. Challis Dawson, of New Boston, was shocked to receive a telegram Sunday night telling of the sudden death of his father, Taylor Dawson, a prominent farmer of Scotland, Ill. Left to right: William J. Flather, Charles C. Glover and Henry H. Flather.
These officials of the Riggs National bank, the strongest banking institution in the city of Washington, have been indicted for perjury and are enjoying their liberty under \$5,000 bail each. They insist they are being persecuted by officials of the U. S. treasury, who secured their indictment on the charge that the officials had sworn to false affidavits denying stock deals. Glover is president of the bank; William J. Flather is vice president, and Henry H. Flather was chief up to the time of his indictment.

ELKS INDOOR FAIR WAS SUCCESS IN ALL WAYS

The Elks' Indoor Fair, conducted all last week in their new home in the Play House building, was a huge financial success, although it will require an audit of the bills and receipts to determine the exact amount of the net proceeds, which will exceed \$1000.
The Fair was one of the enjoyable sights of the Karnival, and contributed to the pleasures of visitors from at home and afar. The true Karnival spirit prevailed there, and every one seemed to have a splendid time.
The bulk of the credit for the success of the Fair belongs to L. P. Haldeman, the chairman of the finance committee, who supervised every detail of the Fair. He had the co-operation of a large number of members, who worked hard all week in their respective stations to make a good showing.
The lodge is deeply grateful, also, to the large number of young women and girls who assisted the committee during the week. It was due to their efforts, largely, that the receipts during the week totaled such a satisfactory sum.
Now that the Fair is over, the finishing touches will be applied to the interior of the two floors occupied by the Elks, and the furniture will be installed as soon as possible. The lodge hopes to be permanently settled in its new home by the first of November.
